

## **For Immediate Release**

Orient Energy Systems (Pvt.) Limited (OES) participated in the International Textile Asia 2012 Exhibition held for the 9th successive year at the Karachi Expo Centre from 10 - 12 March 2012.

The official event of the Federal Ministry of Textile Industry was organized at the most opportune time as the government looks forward to modernize and upgrade the textile sector of the country for better quality products and enhanced productivity. The exhibition focused on the immense buying selling potential of textile & garment machinery, accessories, raw material supplies, chemicals and allied services under one roof.

The OES stall showcased internationally renowned brands to a wide array of audience, both consumer and industrial. The company had on display eight of its brands for whom they are the authorized distributors; GE Jenbacher Gas Engines, GE Water & Process Technologies, Cummins Diesel Engines and Gensets, New Holland Construction Machinery , Hangcha Forklift Trucks, Gardner Denver compressors, Briggs & Stratton Gas Gensets and OES Power Portable gensets. International delegates from GE and Cummins also were present at the exhibition. A large number of visitors visited the stall and showed keen interest in the products on display.

Orient Energy Systems (Pvt.) Ltd is one of the leading multinational engineering company distributing internationally recognized power generation and industrial solutions in Pakistan, Bangladesh and UAE. Our diverse clientele ranges from household consumers, government bodies, and local industries to multinational giants displaying our capabilities and the power of the brands that we represent.
